Welcome to the most sought after Annual Art Festival in Telangana for school children to showcase their outstanding artistic talent and win 200+ cash prizes worth Rs. 2+ lakhs, 2,500+ medals, mementos, and many more.

“5th Telangana State Level Drawing Competition 2024”, themed on “MAKE IN INDIA” - Government of India’s prestigious national program by Ministry of Commerce and Industry to boost entrepreneurship in India.

Cultivating Art combines Art + Entrepreneurship to make all our budding artists into future business tycoons and building tomorrow's world through drawing, coloring, and painting.

Cultivating Art is a non-profit organization helping kids indulge into arts, keep them away from virtual games on smart phones and enhance child-parent relationship by art.

Today's common scene in most of the Indian households with their children is addicted to smart phones and tabs. This is a very bad habit having several physical, psychological disorders in kids as their skin and brain are 60% softer and more prone to radioactive waves.

Cultivating Art has been trying to divert young kids of 3-16 years old towards natural arts like drawing, painting, coloring, sculpting and also becoming responsible citizens of India by giving knowledge on Govt. of India’s programs.

50,000+ students participating in all our events so far, Art has proved that it can enhance child-parent relationship apart from producing innovative ideas from kids.

This art event is aimed to promote invaluable importance of entrepreneurship as an integral part of school education and boost development of India to achieve Atmanirbhar and Viksit Bharat. At the same time indulge them into art by letting them look, learn, draw, paint, create, make, and share their creations with world.
