Cultivating Art is a non-profit organization helping kids indulge into arts & keep them away from virtual games on smart phones and enhance child-parent relationship by art.

Today's common scene in most of Indian households with their children is addicted to smart phones & tabs. This is a very bad habit having several physical, psychological disorders in kids as their skin & brain are 60% softer and more prone to radioactive waves.

Cultivating Art has been trying to divert these young kids of 3-16 years old towards natural arts like drawing, painting, coloring, sculpting and also making responsible citizens of India by giving knowledge on GoI programs.

Biggest revelation from our last 6 annual events, having 30,000+ participants, is - Art can enhance child-parent relationship apart from innovative ideas from kids. Most wonderful story shared by a mother last year is: her kid studying in primary school was drawing and filling colors in air by visualizing without having anything in hands.

Now we are here with "4th Telangana State Level Drawing Competition 2023". This edition's theme is based on Government of India's prestigious National Program "FIT INDIA" by The Ministry of Youth Affairs and Sports.

This art event is aimed to promote invaluable importance of **fitness** as an integral part of our daily lives and bring about behavioural changes and move towards a more **physically active lifestyle**. At the same time indulge them into art by letting them **look, learn, draw, paint, create, make, and share** their creations with world.
